COLOUR MATCHING CABINET

COLOUR MATCHING CABINETRASAYAN COLOUR MATCHING CABINET:-

We are the leading manufacturer of colour matching cabinet in region. Our colour matching cabinet are widely used for yarn, fabric dyeing plant, and garment manufacturer and exporters paint manufacturer & exporter & all the industries who are using exact colour combination in their product. Our colour matching cabinet are also suitable for staining, change in color test by using grey scales during color fastness test.

We specialize in both standard and customized models, specifically designed to meet the challenging demands of various scientists for individual and specialized research applications. Over a short period of time RASAYAN brand have been established as reliable manufacturer of colour matching cabinet in India. Apart from that we are supplying our colour matching cabinet in India.

SCOPE:-

Color looks different under different lighting condition. When one uses a Color Matching Cabinet it helps in marking the difference. Color Matching Cabinet measures the color difference between two samples. RASAYAN provides you with high reliable and accurate Color Matching Cabinet. Color Viewing Cabinets is equipped with most accurate light cabinet for visual evaluation of fabrics, garment, cloth, textiles, and leathers and so on.

- RELIABLE
- VERSATILE USEAGE.
- MICRO-PROCESSOR BASED CONTROLLERS (optional)
- AESTHETICALLY DESIGNED
- ENERGY EFFICIENT
- EASY OPRATING

USEFUL FOR FOR YARN, FABRIC DYEING PLANT, AND GARMENT MANUFACTURER AND EXPORTERS & PAINT MANUFACTURER

**BETTER TECHNOLOGY & BEST
QUALITY WITH FAST SERVICE**

- Precise control of environmental parameters
- Corrosion resistant interior & exteriors
- Sturdy construction
- Low maintenance.

Color Matching Cabinet booth is used for visual assessment of color under 6 standard lights. Color Matching Cabinet, Light Box, is suitable for yarn, fabric dyeing plant, and garment manufacturer and exporters. Suitable for staining, change in color test by using grey scales during color fastness test.

It checks matching under a standard light source in a closed environment to minimize the interference of external lights.

FEATURES OF COLOR MATCHING CABINET:

- Cabinet is made of Teakwood, Ply Board & Sun mica, with strict adherence to international standards. (metal body also available at extra cost.)
